When necessary, adjustments are made to the stand-alone financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective starting January 1, 2022. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

- *Amendments to PFRS 3, Reference to the Conceptual Framework*

The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The amendments added an exception to the recognition principle of PFRS 3, *Business Combinations* to avoid the issue of potential "day 2" gains or losses arising for liabilities and contingent liabilities that would be within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets* or Philippine-IFRIC 21, *Levies*, if incurred separately.

At the same time, the amendments add a new paragraph to PFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

The amendments are applied prospectively. The amendments did not have any impact on the consolidated financial statements of the Group.

- *Amendments to PAS 16, Plant and Equipment: Proceeds before Intended Use*

The amendments prohibit entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment. The amendments did not have any impact on the consolidated financial statements of the Group.

- *Amendments to PAS 37, Onerous Contracts – Costs of Fulfilling a Contract*

The amendments specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a "directly related cost approach". The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. The amendments did not have any impact on the consolidated financial statements of the Group.

- *Annual Improvements to PFRSs 2018-2020 Cycle*

- *Amendments to PFRS 1, First-time Adoption of PFRS, Subsidiary as a first-time adopter*

The amendment permits a subsidiary that elects to apply paragraph D16(a) of PFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent's date of transition to PFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of PFRS 1. The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The amendments did not have any impact on the consolidated financial statements of the Group.

- *Amendments to PFRS 9, Financial Instruments, Fees in the "10 percent" test for derecognition of financial liabilities*

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only

those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendments did not have any impact on the consolidated financial statements of the Group.

- Amendments to PAS 41, *Agriculture, Taxation in fair value measurements*
The amendment removes the requirement in paragraph 22 of PAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of PAS 41. The Group applies the amendment prospectively to fair value measurements on or after the beginning of the first annual reporting period beginning on or after January 1, 2022 with earlier adoption permitted. The amendments did not have any impact on the consolidated financial statements of the Group.

"Day 1" Difference

Where the transaction price in a non-active market is different from the fair value from other observable current market in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a "Day 1" difference) in the statement of comprehensive income unless it qualifies for recognition as some other type of asset. In cases where use is made of data that is not observable, the difference between the transaction price and model value is recognized in the statement of comprehensive income only when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the "Day 1" gain or loss amount.

3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in accordance with PFRSs requires the Group to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any changes in estimates are reflected in the unaudited interim consolidated financial statements as they become reasonably determinable.

Accounting judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Judgments

In the process of applying the Group's accounting policies, management has made judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the unaudited interim consolidated financial statements.

Estimates and Assumptions

The Group based its assumptions and estimates on parameters available when the unaudited interim consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

31. Financial Instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate such values:

Cash and cash equivalents, Trade receivables, and Advances to contractors under "Trade and other receivables" and Trade and other payables

The carrying amounts of cash and cash equivalents, trade receivables, and advances to contractors under "Trade and other receivables" and trade and other payables approximate their fair values due to the short-term nature of these accounts.

Restricted cash under "Other noncurrent assets"

The carrying amounts approximate their fair values since these are restricted cash in banks which earn interest based on prevailing market rates repriced monthly.

Financial asset at FVOCI under "Other noncurrent assets"

The fair value of quoted equity instrument is determined by reference to the market closing quotes at the end of the reporting period.

Advances to and from related parties and Payable to previous stockholders of CNMEC and BNVI under "Other noncurrent liabilities"

Advances to and from related parties and payable to previous stockholders of CNMEC and BNVI do not have fixed repayment terms. As such, their carrying amounts approximate their fair values.

Loans Payable

The fair value of loans payable is estimated using the discounted cash flow methodology using the benchmark risk free rates for similar types of loans and borrowings, except for variable-rate borrowings which are repriced quarterly.

Lease Liabilities

The carrying amount of lease liabilities are carried at present value due to the long-term nature of the account. The fair value of lease liabilities was computed by discounting the expected cash flows within effective interest rate ranging from 2.5% to 7.3%. The computed fair value approximates its carrying amount.

Fair Value Hierarchy

As at September 30, 2022 and December 31, 2021, the Group's financial asset at FVOCI is classified under Level 1 and its loans payable and lease liabilities are classified under Level 3.

There were no transfers between levels of fair value measurement as at September 30, 2022 and December 31, 2021.
